

Service Manual Temporary Revision For M860-00-PRELIM

Cover Sheet

26 August 1998

Introduction

Service Manual Temporary Revisions are intended as a fast and efficient way of adding information to your service manual without the complication of publishing a Revision Package. Temporary Revisions may comprise additional information, corrections or new/revised procedures.

Following this cover sheet are the pages listed in the index below that should be inserted in your preliminary manual as instructed. These pages are only temporary additions and will be superseded by a permanent addition to the Series II M860 manual. We suggest you insert this cover sheet at the front of your manual for easy reference.

If you have any questions about these Temporary Revisions, please contact your nearest Tait Dealer or Customer Service Organisation. If necessary, you can get additional technical help from Customer Support, Radio Systems Division, Tait Electronics Ltd, Christchurch, New Zealand.
